CRIME VICTIM PROGRAMS

• Summary of Activity • Fiscal Year 2002/2003• *(July 1, 2002 - June 30, 2003)*

In 1986, the Arizona State Legislature created the Crime Victim Compensation and Assistance Fund under Arizona Revised Statutes § 41-2407 and directed the Arizona Criminal Justice Commission to administer the Fund pursuant to Arizona Revised Statutes § 41-2405. The Commission created two programs for distributing the Fund monies: 1) the Crime Victim Assistance Program; and 2) the Crime Victim Compensation Program. This report describes the activity for both these programs during FY02/03.

Crime Victim Assistance Program - FY02/03 Activity

The purpose of the Crime Victim Assistance Program is to provide grant funding to government agencies and private non-profit organizations to support delivery of direct services to crime victims. Though the Arizona Criminal Justice Commission does not provide direct services to victims of crime, it does establish program rules for the administration of the program. Funding for the Crime Victim Assistance Program comes from community supervision fees collected by the Arizona Department of Corrections. Since the program's inception in 1988, the Commission has awarded over \$9 million dollars to grantees to support crime victim assistance in Arizona.

Fifty-three organizations submitted grant applications for the FY02/03 grant cycle, requesting a total of \$2,028,132 in funding which was more than double the amount available. Through a competitive process, the Commission awarded \$900,000 to 46 organizations. It should be noted that under Arizona Revised Statute §41-2407 no more than 50% of the monies distributed for victim assistance is allowed to be allocated to the governmental agencies or public officers represented on the Commission.

During FY02/03, the forty-six Crime Victim Assistance Program grantees provided 306,883 victim services to 27,692 crime victims in Arizona. Domestic violence accounted for nearly 25% of those accessing services. The majority of the victims were women (approximately 54%) between the ages of 18 and 64 years (approximately 63%). Notification services accounted for the highest percentage of services provided at approximately 35% of total services. On average, each victim service cost a little less than \$3.

The FY02/03 Crime Victim Assistance Program grantees are listed on page 5 along with the dollar amount awarded to each. The FY02/03 Summary of Program Activity spreadsheets are shown on pages 9 and 10, and program activity spreadsheets for each agency funded begin on page 11 of this report.

Executive Summary

Crime Victim Compensation Program - FY02/03 Activity

The purpose of the Crime Victim Compensation Program is to assist innocent crime victims in Arizona with out-of-pocket expenses for crime-related medical treatment, mental health counseling, funerals, and wage loss. Traditionally, funding to support the program has come from two sources: 1) penalty assessments on fines; and 2) inmate work fees collected by the Arizona Department of Corrections. In FY02/03, the program also received a general fund appropriation of \$250,000, bringing the program size for FY02/03 to \$2.25 million, the same level as FY01/02.

In addition to the state funds, the State of Arizona each year receives a federal Victims of Crime Act (VOCA) formula grant which is based on the certified amount of state monies spent to compensate victims of crime. The VOCA award for FY02/03 was \$566,000. Since 1991, the Crime Victim Compensation Program has awarded over \$21 million in state and federal funds to assist victims with eligible crime-related expenses.

Unlike the Crime Victim Assistance Program which is a competitive grant program, the Crime Victim Compensation Program is a state program administered at the county level by the fifteen county attorneys. All fifty states have a Crime Victim Compensation Program, but Arizona is only one of two states that operate a decentralized program. Under the Crime Victim Compensation Program Rules, a victim must file a compensation claim at the county attorney's office within the county where the crime occurred. The county attorney's office in each county investigates the compensation claims which are then presented to the county's Crime Victim Compensation Board for review. Each Board is comprised of appointed volunteers selected from citizens of the respective county who determine the approval or denial of the compensation claim in accordance with the Program Rules. The maximum award for a claim is \$20,000.

Statewide, 1,903 victim compensation claims were submitted in FY02/03 with 1,538 approved for awards. Three hundred forty-nine (349) were denied or closed, with 16 claims pending further investigation at the end of the fiscal year. Victims were awarded \$2,669,655 in FY02/03 for an average of \$1,736 per claim. Assault topped the list of crimes causing victims to access the program (approximately 39%), and 40% of all awards were for medical expenses.

The spreadsheet on page 60 lists the FY02/03 program activity for the entire state. On page 61, the spreadsheet compares the program activity of FY01/02 to FY02/03. Finally, beginning on page 62, the spreadsheets display the FY02/03 program activity for each county.

Crime Victim Assistance Program

Crime Victim Assistance Program - FY02/03 Activity

The purpose of the Crime Victim Assistance Program is to provide funding to government agencies and private non-profit organizations to support delivery of direct services to crime victims. The Arizona Criminal Justice Commission does not provide direct services to victims of crime, but does establish program rules for administration of the program. Funding for the Crime Victim Assistance Program comes from community supervision fees collected by the Arizona Department of Corrections. During the past fourteen years, the Commission has awarded over \$9 million dollars to grantees to support crime victim assistance in Arizona.

Direct services eligible for funding through the Crime Victim Assistance Program include:

- Crisis intervention services;
- Emergency services such as temporary shelter, petty cash, or temporary repairs;
- Support services including counseling and referrals to other assistance;
- Court-related services including escorting victims to criminal justice-related interviews and court proceedings;
- Notification services;
- Training for staff; and
- Printing and distribution of brochures.

Awards are competitive and based on the Crime Victim Assistance Program Rules (R10-4-201 to R10-4-204) and priorities approved annually by the Commission. The following priorities were approved by the Commission for the FY03 (July 1, 2002 - June 30, 2003):

- Statewide distribution - Grant support provided to at least one multiple-service program in each county;
- Programs that provide multiple-victim services to a diverse range of crime victims;
- Programs that demonstrate the highest ratio of advocate-to-victims served and victims-to-services provided;
- Programs from counties with the highest crime per capita based on the latest Uniform Crime Report data;
- Programs that demonstrate clear goals and objectives that emphasize direct services to victims of crime;
- Programs that demonstrate strong collaborative efforts in their community; and
- Programs that demonstrate a strong component of assisting victims in filing Crime Victim Compensation Program applications.

Reporting Requirements

Grant recipients are required to submit four quarterly financial reports during the grant period and an annual performance report at the end of the grant period. The annual performance report captures data on services provided to victims, types of crime, victim demographics, assistance with accessing the ACJC Crime Victim Assistance Program, and utilization of volunteers in their programs. In addition, the annual performance report requires the grant recipients to provide narrative responses to several questions, including any notable issues or trends affecting crime victim services in their communities. Information contained in the annual performance reports assists the Commission to continue to improve the program.

Statistical Data

In FY03, the forty-six Crime Victim Assistance Program grantees provided 306,883 services to Arizona crime victims. Domestic violence accounted for approximately 25% of all victims accessing services. The majority of those accessing program services were females (approximately 54%) and between the ages of 18 and 64 years (approximately 63%). The most frequent service provided was notification services at approximately 35% of services provided, with emergency shelter ranking second at approximately 24%.

Crime Victim Compensation Program

Crime Victim Compensation Program - FY02/03 Activity

In 1986, the Arizona State Legislature established the Crime Victim Compensation Fund. The Arizona Criminal Justice Commission, by statute, is directed to administer the fund and create and implement rules which guide the awarding of funds to victims of crime. Arizona is one of two states that utilize a decentralized model of administration of the Crime Victim Compensation Program.

The Commission each year is required by the Crime Victim Compensation Program Rules to designate one operational unit in each county to receive a portion of the fund and to administer the program at the county level. Currently, the county attorney in each of the fifteen counties is designated to assume the responsibility for the expenditure of the funds apportioned to the county. Funds are distributed to each county based upon a formula approved by the Commission.

Claims are filed by victims of criminally injurious conduct in the county in which the crime occurred. A local operational unit, supervised by the county attorney in each county, investigates each compensation claim. The claim is then presented to the county's Crime Victim Compensation Board for review. Each Board is comprised of appointed volunteers selected from citizens of the respective county. The Board determines the approval or denial of the compensation claim, in accordance with the rules.

The Compensation Fund receives 4.6% of the Criminal Justice Enhancement Fund (CJEF) and inmate work fees collected by the Department of Corrections. In FY03, the legislature also appropriated \$250,000 from the general fund. These program funds are annually appropriated by the Legislature. For FY 2002-2003, the appropriation is \$2.25 million. The State of Arizona also receives a federal VOCA award annually, based on the certified amount of state monies spent to compensate victims of crime. In FY03, the VOCA award was \$566,000.

Listed below is an overview of revenue collected, program size, and federal VOCA funds since the program's inception.

Crime Victim Compensation Program

A victim or derivative victim of criminally injurious conduct or a criminally injurious act, or an Arizona resident who is a victim of international terrorism, can apply to the Arizona Crime Victim Compensation Program. The general criteria for eligibility are as follows:

- The victim is victimized in Arizona, or is an Arizona resident who is victimized in a U.S. territory without a crime victim compensation program, or is a victim of international terrorism.
- The crime is reported to a police agency within 72 hours of the discovery of the crime unless good cause is shown to justify a delay.
- An application is filed within two years of the discovery of the crime, in the county in which the crime occurred, unless good cause is shown to justify a delay.
- The victim or derivative victim willingly cooperates with law enforcement agencies.
- The victim or a derivative victim suffers physical injury or extreme mental distress as a direct result of the criminally injurious conduct.
- The victim or derivative victim incurs economic loss as a direct result of the crime which is not covered by a benefit or advantage that the person is entitled to receive from a collateral source.

The Crime Victim Compensation Program can pay for crime related medical costs, mental health counseling (up to 36 months), funerals (up to \$5,000) and some limited wage loss. The maximum award of any one claim is \$20,000. The Compensation Program cannot pay for crime scene clean up; property loss or repair; pain and suffering; attorney fees; a claimant serving a sentence of imprisonment in a detention facility, home arrest, or work furlough, or who has escaped imprisonment in a detention facility, home arrest, or work furlough program.

A statewide summary is listed on page 60 as well as a comparison year-to-year comparison on page 61. Pages 62 – 76 illustrate the FY03 activity for the fifteen counties.
